

Marius personal impressions

In my opinion, the meeting with the professional volley ball players was a little disappointing because we didn't play Volley Ball with the NRMV.

I learnt a lot of information about the players' careers and about the players' injuries.

I really liked the special time when we got the players' autograph.

The sportsmen were extremely professional, extremely dynamic, very fit and extremely sociable.

After the meeting, I felt more interested in volleyball and I felt more motivated to practice more sport.
